

REVOKE 6 PERMITS; TAKE \$50,000 RUM

Yellowley Agents Continue
War on Fake Wholesale
Drug Concerns.

RESTAURANT IS RAIDED

Much Wine Confiscated in
Paul and Joe's Place—
Proprietors Held.

While the Federal Grand Jury was returning an indictment yesterday against Samuel Albrecht, Baltimore "merchandise broker," charging bribery and attempted bribery, E. C. Yellowley, Acting Director of Prohibition, revoked the liquor permits of six "wholesale" drug concerns in this city and also caused the seizure of \$50,000 worth of liquor in Paul and Joe's restaurant in 62 West Ninth street.

Mr. Yellowley announced that since he assumed office he had caused the revocation of about 200 permits of different classes after a thorough investigation. At present there are outstanding only seventy permits held by drug companies throughout the entire State.

Included in the liquor permits revoked were those held by concerns that have disposed of millions of dollars' worth of whiskey through bootlegging channels. These concerns have been given ninety days in which to dispose of surplus stocks to legitimate wholesale druggists.

Mr. Yellowley said he would remain here for a few weeks and when his successor takes office he would find a "clean house." The acting director said a resident of this city would probably be named to succeed him.

Albrecht, who was arrested last week in prohibition headquarters, is alleged to have offered a bribe of \$50,000 to Mr. Yellowley and Green Miller, his assistant. In connection with the proposed issuance of permits. It is charged that Albrecht actually handed over \$200

In cash to Mr. Miller in the presence of a witness and was then placed under arrest.

In connection with the bribe offer Albrecht is charged with having said he would pay Miller and Yellowley \$10 a case for every consignment of whiskey released from certain distilleries. His office in Baltimore was searched and, according to the Washington authorities, valuable information seized which may result in the Government seizing several distilleries in Maryland and other States.

"I am gratified at the quick action taken by the Grand Jury in Albrecht's case," said Mr. Yellowley. "The time has come when men cannot offer bribes to further the bootlegging game and get away with it."

Agents Reager, Kerrigan, Wittenberg and Gallanti made the raid on Paul and Joe's restaurant and among the seized goods were 2,000 bottles, 50 casks and 100 jugs of wine. Paul Louis, said to be the owner of the place, was arrested and will be arraigned to-day before United States Commissioner Hitchcock.

Three of the crew of the ocean going yacht John Scully were declared in contempt of court and sent to the Raymond Street Jail, Brooklyn after they refused to answer questions put to them before the Federal Grand Jury concerning the cargo of their ship. The yacht, it was explained, was raided last week soon after docking at Stapleton, Staten Island, and Federal authorities having been informed she carried liquor. None was found.

HUGE SAVING PLANNED IN SMALL DWELLINGS

Hoover Trying to Standardize City Building Codes.

Special Dispatch to THE NEW YORK HERALD, Washington, D. C., Oct. 24.

Approximately \$1,000,000,000 will be saved to builders of small dwellings and apartments in the next few months if plans of the Commerce Department, under direction of Secretary Hoover, are successful.

Working through a newly organized division of housing, Mr. Hoover is trying to standardize building codes of the big cities in a way to reduce generally building costs 10 per cent and plumbing equipment by a least 20 per cent.

Approximately \$10,000,000,000 worth of construction work is needed in the United States as a result of the national housing shortage, according to an estimate by the National Conference on Unemployment. A reduction of this cost by 10 per cent. will tend to break exorbitant rents and increase the number of available apartments and dwelling for small families.

On the following day Andrews and wife No. 2—whom he married in Greenwich, Conn., on January 25, this year, were driven out of the house. Two children by the first marriage remained with their mother.

After the eviction episode Andrews was made a defendant in a divorce action by wife No. 1. The case was heard by a special master in chancery in Jersey City. On September 19 he filed his report recommending a divorce with the custody of the two children, John and Harry, aged 7 and 8, given to the mother.

ANDREWS ACCUSED OF GRAND LARCENY

Customer Alleges Broker Sold
\$20,000 Stocks Deposited
as Collateral.

Herbert T. Andrews, a broker living at the Pennsylvania Hotel, and said by the detective who arrested him to be the Herbert Thornton Andrews whose efforts to run one establishment with two wives resulted in an arrest and divorce proceedings a few months ago, was locked up at Police Headquarters last night on a charge of grand larceny. The complaint against him, Horace R. Van Vleck of Montclair, N. J., alleges that Andrews has sold \$20,000 stock deposited with him as collateral. Andrews, well dressed and youthful looking, was made a prisoner at Seventh avenue and Thirty-second street by Detective Dunphy of Old Slip station. He was freed in \$5,000 bail in Night Court.

Dunphy was the only one at headquarters who knew anything about the case. Mr. Van Vleck could not be reached.

According to Dunphy, the complaint alleges that the stock mining shares were given to Andrews in his office at 20 Broad street. This took place about July 18, this year. He was to have held it, Dunphy said he understood, but instead he disposed of it, and, according to Mr. Van Vleck, used the proceeds.

The Herbert Thornton Andrews involved in difficulties with two wives lived at 2550 Hudson Boulevard, Jersey City. Both women, Mrs. Maud Augusta Haynes Andrews and Mrs. Esther Tattall Andrews, shared his time and his home. On April 13 Mrs. Maud A. H. Andrews made it known that she had retained counsel to protect her interests in the tangle that had been developing. That was the first any of their friends knew of the trouble.

On the following day Andrews and wife No. 2—whom he married in Greenwich, Conn., on January 25, this year, were driven out of the house. Two children by the first marriage remained with their mother.

After the eviction episode Andrews was made a defendant in a divorce action by wife No. 1. The case was heard by a special master in chancery in Jersey City. On September 19 he filed his report recommending a divorce with the custody of the two children, John and Harry, aged 7 and 8, given to the mother.

BRONX FARMER KILLED; MORTGAGE HOLDER HELD

Prisoner Says He Shot Young
Man in Self-Defence.

Arthur Cafario, 23, a farmer, was shot and killed yesterday on his farm at 222d street and Baychester avenue, The Bronx. Patrolman Carey of the Wakefield station arrested Gaetano Amadio, 23, a hucker of 1170 Union avenue, The Bronx. The police said Amadio insisted he killed Cafario in self-defence. The police said the shooting followed a quarrel over a mortgage which Amadio had on Cafario's farm. Amadio bought the place in under foreclosure proceedings. It was said, and ordered Cafario to leave. The men met yesterday afternoon, and Amadio is said to have left and returned with a revolver. He told the police that Cafario threatened to kill him with a shotgun, which was found near the dead man's body.

DOG WHICH BIT 15 SHOT ATTACKING WOMAN

Examination for Rabies Will
Be Made.

The dog which bit fifteen persons in Coney Island last Sunday night and early yesterday morning was shot and killed yesterday shortly before 9 o'clock by Patrolman Vincent P. Daly, a mounted officer of the Coney Island station. The animal was identified by several persons who were bitten Sunday night.

Patrolman Daly put two bullets into the dog's body just after it had attacked Mrs. Lena Meyers of 1953 East Twenty-second street at Avenue U and Twenty-second street and had bitten her on the breast. The officer was half a block away when he saw the animal jump at the woman. He fired a shot in the air to frighten several school children near by who were running toward the dog, and then killed the dog as it left Mrs. Meyers and turned upon him. The animal's body will be examined to determine whether it had rabies.

MAYO BIGAMY TRIAL IS POSTPONED AGAIN

The trial of Virgilus St. Julian Mayo, wealthy radiator manufacturer of New Haven, who was indicted more than two years ago on a charge of bigamy, was postponed again yesterday when the case came up before Judge Crain in General Sessions. Mayo entered a plea of not guilty. George Gordon Battle, counsel for Mayo, contended that the alleged crime was outlawed, and the court allowed him from one week to ten days to make motions for the dismissal of the indictment.

C. A. CARROLL BEAT HER, SAYS ACTRESS

Betsy Ross Charges Attack by
Tammany Man's Son on
Automobile Ride.

Cyril A. Carroll, son of John F. Carroll, who twenty years ago was a Tammany leader, was made defendant yesterday in a \$75,000 damage complaint by Betsy Ross, moving picture actress.

Miss Ross alleges that in April, last, after an athletic meet and dinner at Travers Island, Carroll invited her to return to Manhattan with him in an automobile and that while she was riding with him he began abusing her and struck her. After striking her several times, she says, he stopped the car at Boston road and 230th street and beat her about the head and shoulders and tore her hair and clothing. She bases her claim for damages on the pain she suffered and on the fact that she was humiliated in a public street before people who knew her.

Carroll, who is 25, was suspended from the New York Athletic Club last June, two months after the episode in which Miss Ross claims to have been injured. Charges had been made that he had conducted himself boisterously in the club house in Fifty-ninth street and at Travers Island. His suspension was for a year.

At the hearing on his suspension witnesses told that he had made a habit of taking liquor into the club and that when he was in the billiard room it was difficult to play there because of the noise he created. It was charged also that he had refused to obey the rules about the use of the swimming pools and insisted on swimming at late hours.

Carroll, who is unusually stout, is a swimmer and water polo player and is popular with the younger members of the club. His father, who shared control of Tammany Hall with Richard Croker and John C. Sheehan and retired from politics after Charles F. Murphy rose to power, died in 1911. His widow later left her estate to her four children. Young Carroll has an income of about \$2,000 a month.

STILLMAN ORDERED TO COURT IN PERSON

Must Show Cause Why Wife
Should Not Be Appointed
Guardian of Sons.

James A. Stillman has been directed to appear next Friday before Surrogate John P. Cohalan and show cause why Mrs. Stillman should not be appointed general guardian of their two sons, James and Alexander Stillman, both of whom live with their mother. The citation was issued upon the application of Mrs. Anne U. Stillman, through her attorney, John F. Brennan of Yonkers.

It is understood that one of the purposes of the action is to obtain an accounting of the property of the two sons. In her petition, sworn to before William P. Blakeley, City Judge of Yonkers, Mrs. Stillman states that the older boy, James, has personal property worth \$50,000 and income from other sources amounting to \$7,000 a year, while Alexander has \$5,000 in personal property and income of an unknown amount from other sources.

This order will result in Mr. Stillman's first appearance in open court since he began the action to obtain a divorce. The banker attended the hearings before a referee, but has not been in court at any time during the long legal battle.

The order was served on Stillman at the uptown branch of the National City Bank, 19 East Forty-second street.

5,000 GERMAN BERTHS SOUGHT BY WHOLE ARMY

Beer and Low Exchange Draw
Many Applicants.

Special Dispatch to THE NEW YORK HERALD, New York Herald Bureau, Washington, D. C., Oct. 24.

The War Department service is almost disorganized. It is all because the Administration will cut the American forces on the Rhine to about 5,000 troops. The entire service wants to be assigned to this delightful billet.

Difference in the foreign exchange and absence of prohibition are reasons in themselves which account for the desire to serve in Germany.

MUNSING
WEAR

DON'T SAY UNDERWEAR—SAY MUNSINGWEAR

CAREFULLY made from the best materials, Munsingwear garments outwash, outwear and outlast expectations. In the long run they're the most economical.

Winter Munsingwear is made in many different styles and fabrics for men, women, children and infants.

Your dealer will give you a 10-Day Tube of Pepsodent if you present the coupon at any store named below.

Do this for your own sake—for your family's sake. Watch how your teeth improve. The delightful effects will very soon convince you what is best.

Every application of Pepsodent brings five distinct results. And modern authorities consider all of them essential.

Now a world method

In many countries Pepsodent is fast displacing old tooth cleaning methods. Dental authorities the world over endorse it. Careful people must adopt it sooner or later, for old methods are not right. With them, tooth troubles and discolorations have become almost universal. A change must come, and now is the time to start it.

Quick changes come

The user of Pepsodent quickly feels conspicuous changes. One cannot doubt the benefits it brings.

Perhaps men who smoke see the most conspicuous effects. Their films are tobacco-stained.

Women see them in prettier teeth, for most film-coats are dingy.

But Pepsodent is most important to the children. Their teeth seem most subject to these film and starch attacks. Dentists advise that children use Pepsodent from the time the first tooth appears.

Present the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear. Watch the other good effects, and read the reasons in the book we send.

This ten-day test will be a revelation. It may bring to your home a new era in teeth cleaning. And the benefits to you and yours may be life-long in extent. Cut out the coupon now. Present it today so you can start at once.

Prettier Teeth Next Week

If you will now start this delightful test

This is to offer you a way to whiter teeth, cleaner, safer teeth. Such glistening teeth as millions now enjoy.

Any dealer named below will give you the means. Get it and watch the effects. See your teeth grow prettier—note how clean they feel.

Dentists everywhere advise this method. Millions of homes have adopted it. Try it this week, for your own sake. Learn what it means to you.

To remove the film

Your teeth are coated with a dingy film. It is viscous—you can feel it with your tongue. It clings to teeth, enters crevices and stays. It clouds the teeth and causes most tooth troubles.

The ordinary tooth paste does not effectively combat it, so the tooth brush has lost much of its intact. As a result, teeth lose their luster. And, despite all brushing, tooth troubles have been constantly increasing.

The film is what discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Germs breed by millions in it. They, with

tartar, are the chief cause of pyorrhea. Many other serious troubles are also traced to them.

Science combats it

Dental science has long sought ways to combat that film. The ways have now been found. Able authorities have amply proved them. Leading dentists everywhere advise their daily use.

The methods are embodied in a new-day tooth paste—Pepsodent. It combats the film wherever it may linger. In this way it brings surprising results which one quickly sees. Over 5,000 new people daily are trying out this modern method.

Fights acids too

Pepsodent brings three other effects which authorities now desire.

It multiplies the salivary flow—Nature's great tooth-protecting agent. It multiplies the starch digestant in the saliva. That is there to digest starch deposits which may otherwise form acid.

It multiplies the alkalinity of the saliva. That is Nature's neutralizer for the acids which cause decay. Pepsin is also included.

Storage of Anthracite Adds to Production Cost

ANTHRACITE coal comes from a comparatively small section of Pennsylvania. In order to produce enough anthracite to supply the country's requirements, the Pennsylvania mines must be kept in continuous operation.

In summer production exceeds demand and it becomes necessary to place the surplus in storage. In winter the demand exceeds the productive ability of the mines.

For these reasons on September 1 the larger anthracite companies had about 4,500,000 tons of all sizes stored in plants belonging to them between the mines and eastern markets.

In addition to this about 2,000,000 tons of domestic sizes are carried on western lake docks.

This coal had to be loaded on cars at the mines, freight paid to the storage yards, unloaded and placed in storage. When it is sold, the operation is reversed, the coal is picked up, screened, reloaded on cars and shipped to destination.

The storing of sizes of anthracite used for ranges and furnaces is a costly operation. The biggest item arises from the breaking up of the coal into smaller

and less marketable sizes, that sell for only \$2 or \$3 a ton.

The necessity of storing anthracite adds from 60 cents to \$1 a ton to the cost of the coal, depending on circumstances. This figure does not include interest on money tied up in the coal, nor interest on the investment in the storage yards.

If consumers would take half of their supply during spring and summer months the cost of storage would be eliminated.

In the long run, the available supply of coal is not only what the mines are able to produce, but what the railroads can transport and your coal dealer distribute.

The best place to store coal is in the consumer's coal bin

The information contained in this series of advertisements of which this is No. 7, has to do only with the MINE products' part in the transaction. Control passes out of the producers' hands as soon as the coal is loaded on cars for shipment to market.

Those desiring further information can obtain it by addressing
